

“I’m Proud to be a Beaver”

by the Banana Slug String Band

CHORUS:

Chew, chew, chew, chew...

that's what beavers do, we chew!

Slap your tail, shout out loud,

I'm proud to be a beaver!

**No time to play there's work to do...
dams to build, logs to chew.
Aspen wood tastes good you know...
trees comin' down, look out below!**

**Rodents come in different sizes,
we're big, look at these incisors!**

**Our teeth keep growing,
unless we're doing,
what we do best,
and that is chewing!**

(CHORUS)

**Under the ice, we dive down
low,
our lodge is entered from
below.**

**It's warm, and
safe and dry in
here,
because
we're...**

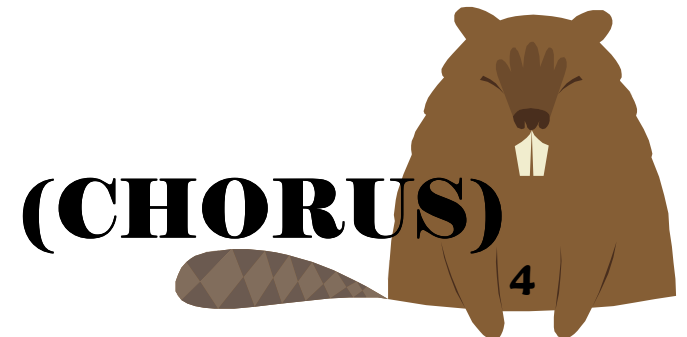

...skillful engineers!

**Slap your tail, sound the alarm,
webbed feet swim away from harm.
River Otter loves to eat,
beavers snack, and beaver treat.**

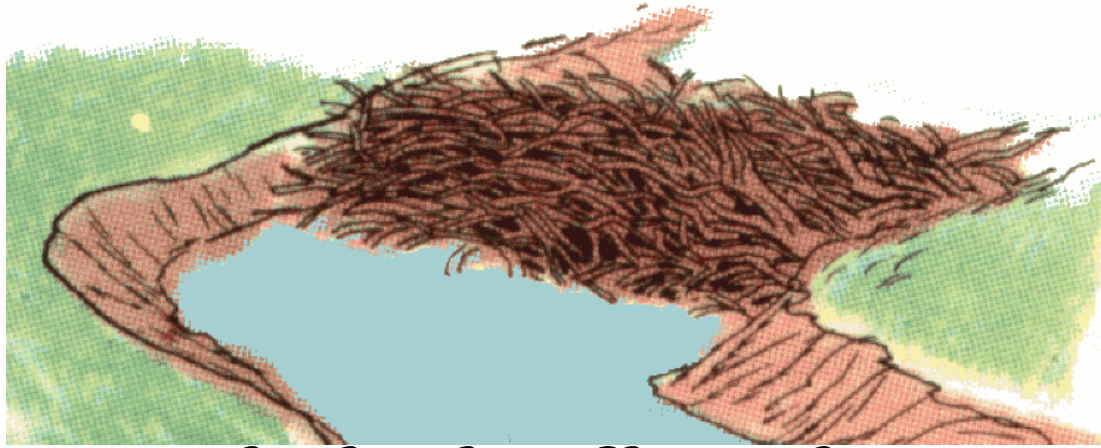

**Waterproof fur and diving gear,
plugs for the nose and plugs for the ears.
We wear diving goggles, too.**

You see we're built to swim and chew!

(CHORUS)

**Beaver ponds help flood control.
In times of drought,
they're a water hole.
So remember your beaver pals...
we build lodges, dams and canals!**
